What is Patience?

When are some times you have shown patience?

Patience is tricky. We want everything now! Want a pizza? Just order it on your phone app and go pick it up! Want groceries? Just head to H-E-B and pick them up! Want something online? Now, it only takes two days to get here! When we have to wait for things, it can be really hard to stay calm.

Waiting in lines, taking turns with a toy, helping a friend who needs help; all of these require patience. In a world that tells us we don't need to wait for things, we know we need patience as we wait for the biggest thing ever - the return of our Savior, Jesus!

Take turns scratching your family's back. Be patient and wait your turn and do a good job when it is someone else's turn.
